The need for a practical and novel type of dictionary, enabling its users to understand and be understood immediately in the five principal Western languages, has always been felt; even more so today, when mass tourism has reached the proportions of a «Völkerwanderung», thus assembling and moving entire populations from one country into another.

Students, professional men and women, technicians, industrialists, workers, writers, scientists, clerks, artists - all kinds and conditions of modern man-feel the necessity, in a steadily shrinking world where distances are constantly reduced in terms of time and which is rapidly becoming a true cosmopolitan reality, to use a language which represents the natural synthesis of the five most widely spoken languages in the Western world. This is the essential reason for a novel and revolutionary dictionary, conceived after years of study, trials and comparisons as well as analysis and tests of every kind, compiled and elaborated with the assistance of some of the most experienced specialists in this field for the immediate and direct use of the peoples living on the five continents.

Our very sincere thanks to Charles Ricono, Head of the BBC South European Service, to Silvio Menicanti of the Italian Radio (Radiotelevisione Italiana) and to Carlo Masera, LL. D., for their advice and encouragement.

the vocabulary lists, in strict alphabetical order, those words which are most frequently used in every-day speech from which they have been selected. This system, both novel and original, is a great time-saver and provides easy reference, compared to any other traditional multi-lingual dictionaries. Horizontally, on a line headed by each of the basic words, you will find translations into the four other languages of the dictionary. The letter preceding the word in the first column indicates the language in which it is expressed. Each language is represented by more than 6,000 terms, so that the first column contains well over 30,000 English, French, German, Italian and Spanish

words.

se in current use. In fact, the «5» springs from every-day life and this is the main reason why the dictionary faithfully reflects the languages as they are spoken today. Although meticulously edited, the «5» is bound to cater far more for the practical requirements of the «man-in-the-street» than for those of expert linguists. We should be very happy indeed if the « few » found it attractive, but our chief purpose is its use by the « many ». In order to achieve our aim, we have thought it desirable to add a simplified form of phonetic transcription for words from and into English, a language which, phonetically, may be considered the most irregular of the

five.

La nécessité d'un dictionnaire pratique et nouveau qui puisse mettre chacun en mesure de comprendre immédiatement les cinq langues occidentales les plus parlées et de se faire comprendre dans ces langues, est ressentie depuis toujours et encore plus particulièrement aujourd'hui où le tourisme de masse à l'échelle internationale a pris une extension extraordinaire. Etudiants, techniciens, industriels, ouvriers, écrivains, savants, employés, artistes, mais surtout les hommes modernes éprouvent ce besoin, en un monde chaque jour plus petit et en perpétuelle expansion, de disposer d'un dictionnaire de ce genre.

C'est ainsi, après des années d'études, d'essais, de comparaisons, d'analyses et d'examens qu'a été conçu avec l'aide des meilleurs spécialistes en la matière, ce dictionnaire révolutionnaire qui s'adresse immédiatement et directement à la population des cinq continents.

Nos plus sincères remerciements à Charles Ricono, directeur des Services Extérieurs de la BBC (British Broadcasting Corporation), Silvio Menicanti, de la Radiotelevisione Italiana, et Maître Carlo Masera, pour leur conseils et leur encouragements.

Dans la première colonne, dite « colonne internationale », sont classés dans l'ordre alphabétique les mots les plus modernes et usuels choisis dans le langage de chaque jour des cinq

principales langues occidentales. Ho-

rizontalement, après chaque mot, sur

cinq colonnes parallèles, ces mêmes

mots sont traduits dans les différentes

langues précitées. Le symbole gra-

phique devant le mot indique la langue dans laquelle celui-ci est exprimé.
Chaque langue est ici représentée par plus de 6.000 mots, ce qui fait que dans la première colonne se trouvent plus de 30.000 termes anglais, français, allemands, italiens, espa-

gnols.

Les traductions sont les plus usitées

dans le langage courant. Le «5» en

effet, naît de la vie quotidienne. Voilà pourquoi ce dictionnaire, qui offre le langage le plus vivant et parlé du monde, est réalisé pour la nécessité de chaque jour plutôt que pour l'usage exclusif d'experts philologues.

Nous serions heureux que ceux-ci se

servent quelquefois de notre diction-

naire; cependant, notre but est sa

plus grande utilisation par tout le monde. Pour atteindre cet objectif nous avons voulu indiquer pour la langue phonétiquement la plus compliquée des cinq, c'est-à-dire l'anglais, la prononciation approximative afin que chacun puisse trouver, en ita-

lique, en même temps que la traduction, la phonétique de sa propre langue vis-à-vis de l'anglais et viceversa.

Der Bedarf für ein neues und praktisches Wörterbuch, das es allen ermöglicht, sich in den wichtigsten fünf westlichen Sprachen verständlich zu machen und sie auch zu verstehen, ist immer vorhanden gewesen, um so mehr heute, da der Tourismus das Ausmass einer Völkerwanderung erreicht hat und auf diese Weise die Menschen aller westlichen Länder mehr und mehr zusammenbringt und vereinigt.

In einer ständig kleiner werdenden Welt, in der die Menschen sich immer mehr zu Weltbürgern entwickeln, sehen Studenten, Angehörige der freien Berufe, Techniker, Industrielle, Arbeiter, Schriftsteller, Wissenschaftler, Beamte, Künstler, kurzum die Menschen unserer Zeit, die Notwendigkeit des Verständnisses der fünf Hauptsprachen der westlichen Welt.

Aus diesem Grunde wurde nach jahrelangen Vorarbeiten und Vergleichen unter der Mitarbeit qualifizierter Fachkräfte ein neuartiges Wörterbuch geschaffen, das sich direkt an die Bewohner der fünf Kontinente richtet.

Unseren herzlichsten Dank an Charles Ricono, BBC (British Broadcasting Corporation), Silvio Menicanti, RAI (Radiotelevisione Italiana) und Dr. Jur. Carlo Masera, für ihren Rat und ihre Unterstützung.

In der ersten, der internationalen Spalte, sind die im gewöhnlichen täglichen Gebrauch angewendeten modernsten Worte in alphabetischer Reihenfolge eingeordnet. Dieses neue System er-

laubt einen viel einfacheren und schnelleren Gebrauch im Vergleich zu allen anderen traditionellen mehr-

sprachigen Wörterbüchern.

Horizontal, neben jedem einzelnen dieser Wörter, sind dieselben Worte in fünf Spalten eingereiht, in die

verschiedenen Sprachen übersetzt: für jede Sprache eine Spalte.
Das Schriftzeichen vor jedem Wort kennzeichnet die jeweilige Sprache.

Für jede einzelne Sprache sind über 6.000 Vokabeln gewählt worden, so dass in der ersten Spalte mehr als

30.000 englische, französische, deutsche, italienische und spanische Termini angeführt sind.

Die Übersetzungen sind die im All-

tagsleben gebräuchlichen, weswegen dieses Wörterbuch die lebendige, in der Welt wirklich gesprochene Sprache wiedergibt und fördert. Es ist in

erster Linie für den notwendigen tä-

glichen Gebrauch gedacht und erst in zweiter Instanz als Nachschlagewerk für den Fachmann; was nicht

heissen soll, dass wir nicht sehr glücklich sein werden, wenn auch sie sich von Zeit zu Zeit unseres Wörterbuches

bedienten. Unser Hauptziel jedoch ist der grösste Gebrauch im täglichen Leben der « Vielen », die sich nicht nur in einer, sondern in mehreren Spra-

chen ausdrücken wollen oder müssen. Um dieses Ziel zu erreichen, haben wir die phonetische Aussprache aller Wörter aus dem Englischen und ins

Englische, der in dieser Hinsicht vielleicht schwierigsten der fünf Sprachen, in vereinfachter Form angege-

Il bisogno di un vocabolario pratico e nuovo che metta chiunque in grado di capire e farsi capire immediatamente nelle cinque lingue occidentali più parlate, è sentito da sempre, ma lo è di più oggi che il turismo di massa rovescia e mescola intere popolazioni da una nazione all'altra. Studenti, professionisti, tecnici, industriali, operai, scrittori, scienziati, impiegati, artisti, ma soprattutto uomini moderni sentono oggi la necessità, in un mondo ogni giorno più piccolo, in continuo divenire, ormai cosmopolita, di usare un linguaggio che è il risultato naturale delle cinque lingue più parlate nel mondo occidentale.

Ecco il perché di un dizionario nuovo, rivoluzionario, concepito dopo anni di studio, prove, comparazioni, analisi ed esami, con l'aiuto dei più preparati specialisti in materia, che si rivolge immediatamente e direttamente alla popolazione dei cinque continenti.

Un ringraziamento particolare a Charles Ricono, direttore dei Servizi del Sud Europa della BBC (British Broadcasting Corporation), Silvio Menicanti, della Radiotelevisione Italiana, e all'Avv. Carlo Masera, per i loro consigli e il loro appoggio.

ogni giorno. Questo sistema, nuovo e originale, consente a chi lo usa un considerevole risparmio di tempo rispetto a ogni altro dizionario in più lingue.

Orizzontalmente, accanto a ognuna di queste parole, in 5 colonne affiancate, stanno le stesse parole, ma tradette palle diverse lingue cappiderete.

Nella prima colonna, quella interna-

zionale, sono collocate, in stretto or-

dine alfabetico, le parole più moderne

e usuali trascelte dal linguaggio di

dotte nelle diverse lingue considerate. La sigla prima del vocabolo indica la lingua nella quale esso è espresso. Ogni lingua è rappresentata da oltre 6.000 vocaboli, cosicché nella prima colonna ci sono più di 30.000 termini inglesi, francesi, tedeschi, italiani e spagnoli.

Le traduzioni sono le più usate colloquialmente. Il «5» infatti nasce dalla vita quotidiana. Ecco perché questo dizionario propone la lingua più viva e parlata del mondo e, pur curato fino alla pedanteria, è pensato per le necessità di ogni giorno piuttosto che per l'uso esclusivo di esperti filologi. Saremmo ben lieti se questi si servissero qualche volta del nostro dizionario, ciò nonostante il nostro fine è il grande uso da parte dei più. Per raggiungere questo scopo abbiamo voluto che si ritrovasse, per la lingua foneticamente più irregolare, ossia

l'inglese, anche la pronuncia approssimativa, cosicché ognuno troverà in

corsivo, insieme alla traduzione, an-

che la fonetica dalla propria lingua al-

l'inglese e viceversa.

Desde siempre se ha sentido la necesidad de un vocabulario práctico y nuevo que permita a cualquiér persona comprender y hacerse comprender en los cinco idiomas occidentales de mayor difusión. Pero en la actualidad esta necesidad se ha incrementado con la aparición del turismo masivo que crea un enorme intercambio humano entre las diversas naciones.

Estudiantes, profesionales, técnicos, industriales, trabajadores, escritores, cientificos, empleados, artistas ... todos ellos, en cuanto hombres modernos, sienten la necesidad - en un mundo cada vez más reducido, en continua transformación y ya cosmopolita - de utilizar un lenguaje que, en definitiva, es el resultado natural de los cinco idiomas más extendidos en el mundo occidental.

Esta es la razón de ser de un diccionario nuevo, revolucionario, concebido trás muchos años de estudios, pruebas, comparaciones, análisis y exámenes, surgido con la aportación de los mejores especialistas en la materia y que se dirige de forma inmediata y directa a la población de los cinco continentes.

Nuestro especial agradecimiento a los señores Charles Ricono, de la BBC de Londres, Silvio Menicanti de la RAI - Radio y Television Italiana - y al abogado Carlo Masera. nal - aparecen en orden alfabético las palabras más modernas y utilizadas, tomadas del lenguaje cotidiano de los cinco principales idiomas occidentales. Horizontalmente, al lado de cada una de estas palabras, en cinco columnas, se recogen las mismas palabras pero traducidas en las diversas lenguas tomadas en consideración. Prepared and edited by the best linguists in the world, this is a dictionary with a novel and practical system of consultation: by looking up a word in the first column, which lists in alphabetical order all the terms of the 5 languages, the user will find, together with the pronunciation, the corresponding translation into English, French, German, Italian and Spanish.

Conçu et rédigé par les meilleurs linguistes du monde, le «5» est un dictionnaire qui adopte un système nouveau et pratique de consultation: en cherchant dans la première colonne, où figurent tous les vocables des cinq langues dans l'ordre alphabétique, on trouve à côté de chaque mot sa prononciation et la traduction correspondante en anglais, français, allemand, italien et espagnol.

Das von den besten Linguisten der Welt vorbereitete und redigierte Wörterbuch «5» baut auf einem neuen und praktischen System auf: wenn man in der ersten Spalte, in der alle Wörter der 5 Sprachen alphabetisch angeordnet sind, ein Wort sucht, wird mon in den folgenden fünf Spalten, zusammen mit der Aussprache, die relative Übersetzung ins Englisch, Französisch, Deutsch, Italienisch und Spanisch finden.

Studiato e redatto dai migliori linguisti del mondo, il «5 » è un dizionario con un nuovo e pratico sistema di consultazione: cercando nella prima colonna, dove sono elencati in ordine alfabetico tutti i vocaboli delle 5 lingue, si trova a fianco, con la pronuncia, la rispettiva traduzione inglese, froncese, tedesca, italiana e spagnola.

Preparado y redactado por algunos de los mejores lingüistas del mundo, el «5» es un diccionario con un sistema de consulta nuevo y práctico. Buscando en la primera columna, donde se hallan en orden alfabético los vocablos más usados en los cinco idiomas, se encuentra a su lado la traducción inglesa, francesa, alemana, italiana y española, con las respectivas pronunciaciones.
